

BENEFITS

- Print using a standard office laser printer
- Use a colour laser printer for colour-coded printing
- Replace ident, no need to cut and re-terminate wire
- Choice of 3 lengths; 20mm, 30mm, 50mm

PRINTING METHOD

Standard Laser Printer

LABACUS INNOVATOR SOFTWARE

- Standard
- Advanced
- Professional

PRODUCT VIDEOS

2-Part Labelling System
(Laser)

A really easy and fast way of producing wire markers using a standard office laser printer.

With our 2-part labelling system you can make changes in seconds with no need to cut and re-terminate the wire. Simply remove the label from the tubing and pull through a new label.

Information must be read in conjunction with page 2 of this datasheet.

TECHNICAL DATA

Printing Method	Standard Laser Printer
Material	Polyester
Standard Colours	White
Sheet Size	A4
RoHS (EU 2002/95/EC)	RoHS Compliant

PRODUCT TESTING

Test	Method
Moisture Resistance	MIL-STD-202G Method 106G
Low Temperature 72 hours @ -40°C	MIL-STD-810F Method 502.4
High Temperature 500 hours @ 70°C	MIL-STD-202G Method 108A
Hydrogen Sulphide	H ₂ S Sour Gas Exposure (2% H ₂ S)
UV Weathering 500 hours	ISO 4982 Part 3 Method A Cycle 1
Salt Mist Spray	IEC60068-2-52 Test Kb Salt Mist (Cyclic)

PRODUCT DATASHEET

Legend™ 2-Part Labelling System - Laser Labels

Information must be read in conjunction with page 1 of this datasheet.

TIP TIME INTO PROFIT®

Because of this special design it is possible to slide the blank tubing onto the wire prior to termination. The label can then be inserted at any time during or after termination.

ORDER INFORMATION

Product Code	Label Dims (mm)	Labels per Sheet	Sheets per Pack	Colour Options
L75/20L	20 x 5	75	100	<input type="checkbox"/>
L45/30L	30 x 5	45	100	<input type="checkbox"/>
L38/50L	50 x 5	38	100	<input type="checkbox"/>

HOW IT WORKS

STEP 1	STEP 2	STEP 3	STEP 4	STEP 5
				
Slide the tubing onto the cable/wire	Print the label using our Labacus® Innovator Software	Insert label into tubing	Pull the tail through the tubing	Tear/cut off tail

Silver Fox always choose the very best and durable materials from which to make our labels. We then test the final printed labels, for a variety of different extreme conditions, all at independently approved external test laboratories (unless otherwise noted). We are not able to anticipate every set of conditions, so always suggest that a user should also satisfy themselves as to the suitability of our labels for their particular environment. This datasheet supersedes any previous information/datasheet released.
