

Precision scales EWJ

with internal automatic calibration

KERN

Application:

Suitable for a wide range of typical laboratory applications

Execution:

- Comfortable operating philosophy: all main functions have a separate button on the control panel
- Internal automatic calibration, time-controlled every 2 hours, guarantees high accuracy and makes location independent
- Capacity indicator: an increasing bar graph display shows the remaining available weighing range

Advantage:

- EWJ scales can be integrated into the KERN Easy Touch system.

Delivery:

with power supply unit and work protection hood

Art. no.	49000 050
Brand	KERN
Manufacturer Part Number	EWJ 3000-2
Type description	EWJ 3000-2
Max. weight measuring range	3000 g
Digit increment, weight	0.01 g
Plate diameter	120 mm
Material of cover panel	Stainless steel
With unit counting	Yes
Min. item weight	200 mg
Reproducibility	0.02 g
Linearity	0.05 g
Settling time scale	3 s
Data transmission type	RS232, USB
Housing dimensions (LxWxH)	220 x 315 x 105 mm
Display type	LCD
Gross Weight	4.120 kg
Product Group	447

EAN

4045761144255
