

DEGUSSIT round file

Type 9030

Application:

For all grinding, deburring and precision grinding work, for resharpening all kinds of tools and for machining hard or abrasive materials such as quartz, glass or ceramics.

Execution:

- Wet or dry machining possible
- Mixed crystal, the main component of which is aluminium oxide, no bonding agent
- Typically red colour due to chrome oxide additives

Advantage:

- High resistance to wear and changes in shape due to the hardness of the crystals
- Achieves excellent surface finish and accuracy of shape during precision work

Delivery:

In case

Art. no.	69383 030
Brand	FRIATEC
Manufacturer Part Number	F901-41272-0
Length	100 mm
Surface structure	Fine
Number of pieces per packet	1 PCS
Diameter	8 mm
Gross Weight	0.028 kg
Product Group	6HD
