

Positioner

Type 5250, cable extraction 1500 mm

AUTOSTAT

Execution:

- Housing made of extremely impact-resistant special plastic
- The load is attached via a safe screw snap hook
- Braking force adjustable using lateral adjusting screw
- Safety device: Fall arrester in line with DIN 15 112 included in scope of delivery, riveted special spring for retracting the load-bearing cable, insulated suspension, highly shape-stabilised structure

Art. no.	77005 251
Brand	AUTOSTAT
Manufacturer Part Number	77005251
Model	5250 0000 00
Type	5250
Min./max. load-carrying capacity	0.5-6 kg
Spring design	Riveted special mainspring
Spring breakage protection	No
Max. cable pull-out length	1500 mm
Colour of housing	Orange
Adjustable cord length	No
Replaceable cord	No
Cord in-feed restriction	Rubber ball, absorbs impacts
Material of cable drum	Plastic
Material of cord	PA - Polyamide
With automatic locking	No
Suspension type	Freely rotating and pivot screw karabiner hook
Load attachment	Screw Karabiner hook
Material of housing	Plastic
Housing height	150 mm
Housing width	105 mm
Housing thickness	53 mm
Height	330 mm
Gross Weight	0.857 kg
Product Group	786
