

The field side connection module provides 24V power for the inputs of the 16-channel input modules 750-1405 and 750-1406 (also suitable for 8 channel input modules in 1-wire connection), eliminating external terminal blocks.

The 24V supply and 0V potential are derived from the internal power jumper contacts of an adjacent upstream I/O module. A connection of the potentials to the downstream I/O modules is made automatically via the power jumper contacts when snapping the I/O modules together. The 24V power is available to all 16 field side CAGE CLAMP®S connections and the 0V potential is passed through without being used by the module.

210-719 operating tool (2.5mm blade) is required to open the CAGE CLAMP®S.

Description	Item No.	Pack. Unit	Technical Data
Field Side Connection 16+	750-1605	1	Voltage via power jumper contacts (max.) 24 V DC Current via power jumper contacts (max.) 10 A DC Wire connection CAGE CLAMP® S Cross sections solid: 0.08 mm ² ... 1.5 mm ² / AWG 28 ... 16 fine-stranded: 0.25 mm ² ... 1.5 mm ² / AWG 22 ... 16 Strip lengths 8 ... 9 mm / 0.33 in Width 12 mm Weight 48 g EMC immunity of interference acc. to EN 61000-6-2, marine applications EMC emission of interference acc. to EN 61000-6-3, marine applications
