USB3.0 Active Cable

DEAR CUSTOMER
Thank you for purchasing this product. For optimum performance and safety, please read these instructions carefully before connecting, operating or adjusting this product. Please keep this manual for future reference.

1.0 INTRODUCTION
This is a USB3.0 Active Cable with a 5 m cable at the input side and a USB3.0 A type female port at the output side. It can extend the super speed signals up to 13 m max totally by connecting a 8 m high quality USB3.0 cable to the output port. It would be very convenient when you use devices which have USB3.0 port especially for long distance.

1.1 FEATURES
This USB3.0 Active Cable has many features that enable it to perform in a superior manner. Among those features you will find:
● Super speed USB3.0 supports 5Gbps data rate, over 10 times of USB2.0 Performance.
● Compatible with USB 3.0/2.0/1.1.
● Support the following speed data rate as follows: Low-speed (1.5Mbps)/ Full-speed (12Mbps)/High-speed (480Mbps) /Super-speed (5Gbps).
● Active USB extender cable ensures signal transmission stability.
● Hot plug capability.
● Extend single up to max 13 m.
● Support win2000/XP/Vista/win7/MAC OS.
