

Set of adjustable centre punches

Application:

For punching using samples or gauges without the need for inconvenient marking

Execution:

- Special tool steel, hardened
- End-to-end centre punch stud, can be ground
- Diameter: 6-16 mm

Advantage:

- For precise punching on workpieces with no misalignment
- Even alignment of the slotted centring sleeve on the sample workpiece or in the drilling template using knurled screws
- Adjustable lengths: 95-115 mm

Delivery:

3 items in case

Art. no.	51308 100
Brand	RENNSTEIG
Manufacturer Part Number	R430 143
Gross Weight	0.153 kg
Product Group	522
