Switch-disconnector, 3 pole, 2000 A, without protection, IEC, Fixed

Part no.
INX40B3-20F-1
Article no.
184044

| Fixed mounting |  |  |  |
| Black |  | mm | $2 \times 80 \times 10$ |
|  |  |  | These are values used in separate switchgear. The actual values will depend on the temperature around the circuit-breaker, which is influenced by the ambient temperature, the degree of protection (IP), the mounting height, the partitions, and any external ventilation. Depending on the specific switchgear design, this may result in derating, which can then be compensated for by increasing the crosssectional area. Temperature rise tests in the specific switchgear can provide specific and detailed information. |

## Design verification as per IEC/EN 61439

Technical data for design verification

| Rated operational current for specified heat dissipation | $I_{n}$ | A | 2000 |
| :---: | :---: | :---: | :---: |
| Equipment heat dissipation, current-dependent | $P_{\text {vid }}$ | W | 220 |
| Operating ambient temperature min. |  | ${ }^{\circ} \mathrm{C}$ | -25 |
| Operating ambient temperature max. |  | ${ }^{\circ} \mathrm{C}$ | 70 |
| IEC/EN 61439 design verification |  |  |  |
| 10.2 Strength of materials and parts |  |  |  |
| 10.2.2 Corrosion resistance |  |  | Meets the product standard's requirements. |
| 10.2.3.1 Verification of thermal stability of enclosures |  |  | Meets the product standard's requirements. |
| 10.2.3.2 Verification of resistance of insulating materials to normal heat |  |  | Meets the product standard's requirements. |
| 10.2.3.3 Verification of resistance of insulating materials to abnormal heat and fire due to internal electric effects |  |  | Meets the product standard's requirements. |
| 10.2.4 Resistance to ultra-violet (UV) radiation |  |  | Meets the product standard's requirements. |
| 10.2.5 Lifting |  |  | Does not apply, since the entire switchgear needs to be evaluated. |
| 10.2.6 Mechanical impact |  |  | Does not apply, since the entire switchgear needs to be evaluated. |
| 10.2.7 Inscriptions |  |  | Meets the product standard's requirements. |
| 10.3 Degree of protection of ASSEMBLIES |  |  | Does not apply, since the entire switchgear needs to be evaluated. |
| 10.4 Clearances and creepage distances |  |  | Meets the product standard's requirements. |
| 10.5 Protection against electric shock |  |  | Does not apply, since the entire switchgear needs to be evaluated. |
| 10.6 Incorporation of switching devices and components |  |  | Does not apply, since the entire switchgear needs to be evaluated. |
| 10.7 Internal electrical circuits and connections |  |  | Is the panel builder's responsibility. |
| 10.8 Connections for external conductors |  |  | Is the panel builder's responsibility. |
| 10.9 Insulation properties |  |  |  |
| 10.9.2 Power-frequency electric strength |  |  | Is the panel builder's responsibility. |
| 10.9.3 Impulse withstand voltage |  |  | Is the panel builder's responsibility. |
| 10.9.4 Testing of enclosures made of insulating material |  |  | Is the panel builder's responsibility. |

The panel builder is responsible for the temperature rise calculation. Eaton will provide heat dissipation data for the devices.
10.11 Short-circuit rating
10.12 Electromagnetic compatibility
10.13 Mechanical function

Is the panel builder's responsibility. The specifications for the switchgear must be observed.

Is the panel builder's responsibility. The specifications for the switchgear must be observed.

The device meets the requirements, provided the information in the instruction leaflet (IL) is observed.

## Technical data ETIM 6.0

Low-voltage industrial components (EG000017) / Switch disconnector (ECOOO216)
Electric engineering, automation, process control engineering / Low-voltage switch technology / Off-load switch, circuit breaker, control switch / Switch disconnector (ecl@ss8.1-27-37-14-03 [AKF060010])

| Version as main switch |  | Yes |
| :---: | :---: | :---: |
| Version as maintenance-/service switch |  | No |
| Version as safety switch |  | No |
| Version as emergency stop installation |  | No |
| Version as reversing switch |  | No |
| Max. rated operation voltage Ue AC | V | 690 |
| Rated operating voltage | V | 690-690 |
| Rated permanent current lu | A | 2000 |
| Rated permanent current at AC-21, 400 V | A | 0 |
| Rated operation power at $\mathrm{AC}-3,400 \mathrm{~V}$ | kW | 0 |
