PIC16F1947 Plug In Module (PIM)
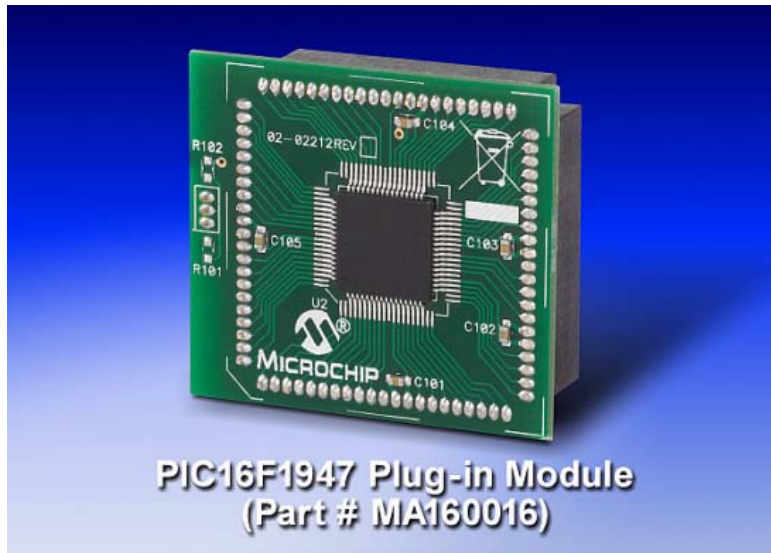

Part Number: MA160016

PIC16F1947 Plug-In Module

The PIC16F1947 Plug-in Module (PIM) is an accessory to the PIC18 Explorer Board, PICDEM LCD2 Demonstration Board, & XLP 8-bit Development Platform that allows users to evaluate and develop with the PIC16F193x/194x family of microcontrollers. Additionally, this provides a platform for general purpose development and gives you the ability to develop code for any PIC12F1xxx/PIC16F1xxx microcontroller.
