PEPPER

ENHANCED ENTHUSIASM WITH PLURAL.IO

EMOTIONALIZING HUMAN-ROBOT INTERACTIONS

Combined with Plural.io, Peppers helps to grow your human-robot interaction strategy.

Plural.io is a code-free based platform that speeds up the customization of social robots and provides Pepper with smart interaction skills.

Optimize
brand visibility

Promote
brand experience

Increase
store traffic

Stimulate
purchase

Pepper enables emotional interactions through its humanoid appearance, recognition and response to gestures, as well as speech and behavior of humans.

Thanks to our software and the proactive conversations, the robot appears more alive and informative.
