3.)	HAZARD IDENTIFICATION Hazard description:	The product						No haz	ardou	us read	tion when
	Information concerning particular hazards for human and environment:	The product may product workers.	could	cau	se burn	s durir	ng solde				
	Prevention:	It is recomm hands after fumes extra	use ar	nd to	work w	ith a g	ood ver				
	GHS label elements:	None									
	Incompatibility:	Avoid contact with basics, acids and oxidizing chemicals. Hazardous reactions with mineral acids: sulfuric acids, phosphoric, nitric (concentrated).				oric, nitric					
4.)	FIRST AID MEASURES										
	General information:	Take affecte							down.

1	7	\cap	72	ሰኅ	14

	After inhalation:	Take affected persons into fresh air. If irritation persists, get medical attention.
	After skin contact:	Immediately wash with water and soap and rinse thoroughly. If skin irritation persists, get medical attention. If burns should occur from molten metal, treat for burn and get medical assistance if necessary. No known hazardous reaction.
	After eye contact:	Rinse opened eye for several minutes under running water. Get medical attention if irritation occurs.
	After swallowing:	Call for a doctor immediately. Do not induce vomiting unless directed to do so by medical personnel.
5.)	FIRE FIGHTING MEASURES	Non-flammable product
	Suitable extinguishing agents:	Dry chemical powder, water spray or foam.
	Extinguishing agents to avoid:	Do not use water jet on fire where molten metal is present.
	Special hazards caused by the substance, its products of combustion or resulting gases:	Molten metal produces fumes or vapours that may be sensitizing to asthmatic persons. Molten metal reacts violently with oxidising agents.
	Protective equipment:	Do not inhale combustion gases. Wear full body protective clothing.
6.)	ACCIDENTAL RELEASE MEASURES	
	Person-related safety precautions:	Remove persons from danger area. Wear protective equipment. Keep unprotected persons away. Use respiratory protective device against the effects of fumes/dust. Ensure adequate ventilation.
	Measures for environmental protection:	Do not allow to enter sewers/surface or ground water.
	Measures for cleaning/collecting:	Not relevant due to the massive form of the product. After cooling, collect the released product and store it in sealed containers.
	Additional information:	Exposure levels indicated in section 8 are relevant to these and other operations.
		See Section 7 for information on safe handling. See Section 8 for information on personal protection equipment. See Section 13 for disposal information.
7.)	HANDLING AND STORAGE	
	Handling:	Due to its high density, the product is heavy. Avoid the fall of the product. Wear protective shoes. S37 = Wear suitable gloves. Wash hands after handling.
	Storage:	Avoid the possibility of contact with acids. On spool, in original cardboard, at room temperature, keep away from inclemency. S2 = Keep out of the reach of children. S13 = Keep away from food, drink and animal feedingsstuffs.

8.)	EXPOSURE CONTROLS /
_	PERSONAL PROTECTION

8.1) Exposure control:

Permissible air concentration (mg/m3)

Product	PEL	REL	TLV	
Tin	2,0	2,0	2,0	
Silver	0,01	0,01	0,1	
Copper 1		1	1	
	0,1 (fume)	0,1 (fume)	0,2 (fume)	

Additional information

PEL = Permissible exposure limit (OSHA)
REL = Recommended exposure limit (NIOSH)

TLV = threshold Limit value (ACGIH)

OSHA = Occupational Safety and Health Administration

ACGIH = American Conference of Governmental Industrial Hygienists NIOSH = National Institute for Occupational Safety and Health

8.2) Personal protective equipment:

Respiratory protectionSuitable fumes extraction system must be locally installed.

Protection of handsCotton gloves are recommended.

Eye protection Safety glasses or facial shield are recommended (if ejections may occur).

Body protection Protective work clothing is recommended: cotton blouse

General protective and hygienic

measures

The usual precautionary measures are to be adhered to when handling chemicals: do not smoke and eat at work place. Keep away from foodstuffs, beverages and feed. Immediately remove all soiled and contaminated clothing. Wash hands before breaks and at the end of work. Do not inhale gases / fumes. Avoid contact with the eyes and skin. Strict hygiene requirements will be prescribed at the workplace.

9.) PHYSICAL AND CHEMICAL PROPERTIES

Form: State: Colour:

Application:

Wire Solid Silver

For soft soldering

Properties	T° solidus	T° liquidus	Density
	(°C)	(°C)	(a/cm³)
Sn96,5Ag3Cu0,5	E	217	7,4

Properties of fluxes	Acid number (mg/g)	Chloride content (%)
F-SW32	392 bis 432	0

10.) STABILITY AND REACTIVITY

Stability:

Stable under normal conditions of use and storage.

Conditions to avoid:

Mechanical and thermal operations giving rise to dusts or fumes without appropriate ventilation. Strong oxidisers may cause violent reaction.

Materials to avoid:

Due to the toxic properties of lead salts, avoid accidental contact with acids, particularly with acetic acid.

-1	7	0	7	'.2	C	1	14

Hazardous decomposition products:	No hazardous decomposition under normal conditions of use.
TOXICOLOGICAL INFORMATION	
Eye contact:	May cause eye irritation due to the fumes during soldering.
Skin contact:	May cause skin irritation in case of flux projections or fumes during soldering. It is recommended to wear cotton gloves to prevent burns by projections.
Inhalation:	Use of product during soldering may produce or release fumes due to heated rosin, which can be sensitizing to asthmatic workers.
Acute toxicity:	No adverse health effect is expected under normal conditions of use.
Toxicological analyses:	This good is not concerned in its final shape.
ECOLOGICAL INFORMATION	
General notes:	Do not allow product to reach ground water, water course or sewage system. Sn/Ag/Cu alloy is a particularly corrosion proof metal.
DISPOSAL CONSIDERATIONS	Disposal must be made according to official regulations.
Surplus and wastes:	Collect all wastes.
Contaminated packaging:	Never use packaging for another purpose.
TRANSPORT INFORMATION	Not classified as dangerous goods by any international codes or agreements (RID/ADR, IMDG, IATA)
DOT regulations:	Hazard class: Not regulated.
Land transport: >>>> ADR, RID (cross-border)	Not regulated.
Maritime transport: >>>> IMDG	Not regulated.
Air transport: >>>> IATA	Not regulated.
REGULATORY INFORMATION	The product does not require any hazard warning label in accordance with EC directives regulations on dangerous substances.
OTHER INFORMATION	This material safety data sheet is entirely written in accordance with regulations in force.
	The relevant data sheet is applicable here. The information contained here in is based on data considered accurate and is offered at no charge. Our aim, by providing the above information which reflects the current status of our knowledge and experience is to describe our product in terms of safety requirements.
	TOXICOLOGICAL INFORMATION Eye contact: Skin contact: Inhalation: Acute toxicity: Toxicological analyses: ECOLOGICAL INFORMATION General notes: DISPOSAL CONSIDERATIONS Surplus and wastes: Contaminated packaging: TRANSPORT INFORMATION DOT regulations: Land transport: >>>> ADR, RID (cross-border) Maritime transport: >>>> IMDG Air transport: >>>> IATA REGULATORY INFORMATION

Liability is expressly disclaimed for loss or injury arising out of use of this information or the use of any materials designated.

Supplementary copies of this data sheet are available on request.

Abbreviations and acronyms:

ADR: European Agreement concerning the International Carriage of Dangerous Goods by Road.

RID: Regulations Concerning the International Transport of Dangerous Goods by Rail.

IMDG: International Maritime Code for Dangerous Goods.

IATA: International Air Transport Association.

IATA-DGR: Dangerous Goods Regulations by the "International Air

Transport Association" (IATA).

ICAO: International Civil Aviation Organization.

ICAO-TI: Technical Instructions by the "International Civil Aviation Organization" (ICAO)

Organization" (ICAO).

GHS: Globally Harmonized System of Classification and Labelling of Chemicals.

EINECS: European Inventory of Existing Commercial Chemical

CAS: Chemical Abstracts Service (division of the American Chemical

Society).
