WSL2512 / WSL2512-18 / WSLP2512 Manufacturing Reel Cure Process

DESCRIPTION OF CHANGE: Juarez Mexico process is being updated to standardize all coating cure processes across all locations. The Mexico change makes it consistent with the coating cure process of USA and Israel. The only difference is that the parts are cured on a material processing reel instead of a tray process for oven cure. It does not change the process flow only the configuration of the material at that step in the process.

REASON FOR CHANGE: Standardize all coating cure processes across all locations.

EXPECTED INFLUENCE ON QUALITY/RELIABILITY/PERFORMANCE: None

PART NUMBERS/SERIES/FAMILIES AFFECTED: Please see materials list on the succeeding page.
