

## Mini Gauss meter

For fields of low flux density.

### Application:

For detecting remanence on workpieces and tools as a pole indicator.

### Execution:

- Simple and handy measuring instrument for checking the polarity of magnetic residual fields, checking the strength of magnetic residual fields and for checking the height of the magnetic field.
- Test device calibrated (without calibration certificate).
- Caution: Keep equipment away from strong magnetic fields!
- (mT= millitesla).
- Gaussian value is displayed.

### Delivery:

1x mini Gauss meter

<b>Art. no.</b>	<b>24493 050</b>
<b>Brand</b>	SAV WALKER HAGOU
<b>Manufacturer Part Number</b>	486.04-50
<b>Model</b>	50-0-50
<b>Measuring range, flux density</b>	5 mT
<b>Gross Weight</b>	0.092 kg
<b>Product Group</b>	230
