

FEATURES

- Each lead is fitted with a 500mA 1000V 50kA HRC fuse
- Totally touch proof integral fuse holders
- High-quality silicone insulated cable
- Resistant to heat, chemicals, oils and abrasions
- Large screw-in crocodile clips with a 20mm
- Strain relief is provided at each end of the leads.

RS PRO Multimeter Test Lead Fused Probe Kit, Fused, 1000 CAT III V, 600 CAT III V

RS Stock No.: 204-583

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

A 1.2m fused test lead set from our RS PRO range offering a high degree of protection to the user when measuring on high energy circuits up to 1000V CAT III. The leads are available with either straight 4mm plugs with retractable shroud, or with right-angled shrouded plugs. Test leads for multimeters are used to test voltage, current, capacitance and other types of testing.

[204-583](#) - Fused right-angled test lead set

[204-599](#) - Retractable Straight Plug

Thin fine insulated prods set [2627770](#) for use with fused test prods and multimeter test lead sets. Shuttered lantern probe set [2627786](#) for use with fused test prods and multimeter test lead sets.

General Specifications

Lead Type	Fused Probe Kit
Connector Type	Right Angled Plug
Fused	Yes
Application	Test and Measurement, Test voltage, current, capacitance and other types of testing

Electrical Specifications

Safety Category Voltage	600, 1000V
Safety Category	600 CAT III V, 1000 CAT III V
Safety Category Level	CAT III

Mechanical Specifications

Lead Length	1.2m
--------------------	------

Operation Environment Specifications

Minimum Operating Temperature	-10°C
Maximum Operating Temperature	+150°C

Approvals

Compliance/Certifications	2011/65/EU and 2015/863
Standards Met	GS38
