

GRAFIX SCALPEL LARGE NO. 21121.55

Shining introduction as a precision tool. With an extra long point.

A picture book scalpel in form and function - or just one from the MARTOR range of products. You can work on graphic paper, film sheets and much more with the GRAFIX SCALPELL LARGE. Since it is made out of chrome plated steel, you can easily place more stress on it. In this variant, we have fitted a large scalpel blade with an extra long, rounded off cutting edge.

Stable Design

No wonder, since your precise cutting tool is made 100% out of forged and chrome plated steel. This robustness will definitely benefit you in your daily work.

A wide variety of blades

You will definitely also like the large selection of blades provided for this scalpel. So you can re-equip your product depending on preference and cutting material with a few hand grips.

Easy blade changing

You can lift the blade a little at the back with one hand. At the same time, you pull it out at the front with the other hand. Now insert the new blade, ready.

Ergonomic handle

In spite of the material, your scalpel is lightweight. The rounded-off handle end and the grooved surfaces for a firmer grip are pleasant additions. The open view of the cutting point also assists you in your work.
