

Cross recess ACR – PH and PZ bits

1/4-inch C 6.3, length 25 mm

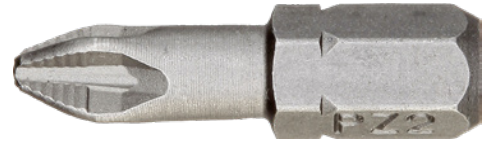

ATORN[®]

Application

Suitable for screw connections that are difficult to loosen

Version

- 1/4" hexagon head drive, type C 6.3 according to DIN 3126/ISO 1173
- „Ribbed“ ACR bits significantly reduce the cam-out effect and are particularly suitable for loosening corroded or painted screws due to their outstanding grip.
- fully hardened
- Chromium-vanadium steel
- Fully hardened
