

# CUTTERS

## 3PC CUTTER KIT

**25mm Depth Cutters**  
Kit includes 14, 18 & 22mm Cutters and Pilot Pins.

## 6PC CUTTER KIT

**25mm Depth Cutters**  
Kit includes 12, 14, 16, 18, 20 & 22mm Cutters and Pilot Pins.

## 6PC CUTTER KIT

**50mm Depth Cutters**  
Kit includes 12, 14, 16, 18, 20 & 22mm Cutters and Pilot Pins.

Evolution cutters are guaranteed to outperform annular cutters made out of HSS, Cobalt, or Tini Coated Cutters. This is because... The Tini Coating on HSS annular cutters increases the cost of the cutter but only enhances the cutter's appearance.

- HSS M-2 Annular Cutters can only be heat treated up to 64 RC before they become too brittle.
- Cobalt Annular cutters can only be heat treated up to 66 RC before they become too brittle.
- Evolution Premium Annular Cutters can be heat treated up to 68RC and they still have tempered hardness.

A higher RC rating without brittleness means more holes cut per sharpening.

# MAGNETIC SHAVING COLLECTOR

Easily Picks up Steel Shavings and other Ferrous workshop debris

- Rubber grip handle
- Maximum lifting weight: 14lbs

Simply slide the plunger and the shavings are neatly deposited.

 1.05 lbs
