PB 303

Dead blow mallets with plastic heads, with a special fiber glass handle
 - considerably stronger and far more durable than wooden handles
 - high resistance to fracture and notching
 - securely anchored in the mallet body with two-part adhesive

Martillo de plástico anti-rebote, mango de fibra de vidrio de alta calidad
 - más fuerte y duradero que los mangos de madera
 - resistente a la rotura y muescas
 - anclaje seguro en el tubo del mango mediante adhesivo de dos componentes
