Keystone Shielded Solution – EMEA
Shielded Copper Cable

- Shielded design provides exceptional performance up to 500 MHz (Category 6A)
- Shielding significantly reduces near-end and far-end alien crosstalk between adjacent cables
- Shielded Category 6A F/FTP 23 AWG cable is EuroClass Cca-s1a-d1-a1

Foil shield in cable prevents unwanted alien crosstalk

Keystone Shielded Jack Modules

- Delta component compliant Category 6A jack
- Tool-less termination utilizes a wire cap secured inside a die-cast housing
- The die-cast housing provides a robust design to protect against physical and electromagnetic damage

Keystone All Metal Shielded Modular Patch Panels

- Modular metal design with integrated shielding allows Keystone jacks to easily snap in, providing seamless integration with Panduit™ StructuredGround™ Grounding System
- A built-in strain relief bar secures individual cables and provides proper cable support
- Dedicated areas allow for port and panel identification; labels are covered in a clear plastic window to protect against damage

Shielded Patch Cords

- Category 6A F/UTP 26 AWG LSZH/CM stranded cable patch cord
- 100% production tested for wire map, NEXT, and return loss
- Label provides identification of performance level, length, and quality control number for future traceability

Integral pair manager ensures consistency and high performance

Keystone Faceplates

- Keystone modules snap in and out of the 86mm X 86mm faceplate for easy moves, adds and changes
- 45° sloped ports facilitate cable flow and provide additional cable room
- The spring-loaded shutter keeps jacks protected from dust and debris when not in use

PANDUIT™ infrastructure for a connected world
