

BBP3 Label Printer Bridge Adapter

Part Number: B33-BRIDGE

Over View:

The Media Bridge for the BBP®33 Label Printer allows material that has been cut from the roll to be loaded into the printer for printing on the second side.

- Package includes the replacement Media Bridge only (printer sold separately)
- The media bridge holds two-sided material above the tape roll
- The material lays across the media bridge to enter the tape entrance ramp
- When not in use, the bridge is raised and snaps into the enclosure cover
