

BALANCERS

LIGHT INDUSTRIAL DUTY

130170 BF and BFL Models

Compact, ergonomic and cost-effective balancers are streamlined to fit virtually any work space, improve productivity by keeping tools organized and safeguard expensive power tools from possible accidents with superior suspension features

Balancers are devices designed to provide constant cable tension throughout a specified length of cable travel. A true balance condition is achieved through precise power-spring tension control and a unique cable drum design which matches the torque buildup from the power spring. Tools or loads attached to Aero-Motive® Balancers become almost weightless in the hands of operators, allowing maximum freedom to work more efficiently and reduce fatigue throughout work shifts, leading to increased productivity.

Features and Benefits

New and improved power springs	Provides best-in-class ergonomics and life cycles
High-impact ABS housings	Protects spring and drum within light-duty industrial environments
Tension +/- adjustment can be done using off-the-shelf general tools	Facilitates easy tension adjustment depending on weight of tool being supported
Flexible stranded-steel aircraft cable features adjustable cable stop	Increased durability Allows tools to be set at different positions/ heights
360° rotating swivel hanger, secured in place by cotter pin	Provides a full range-of-motion Enhances security of balancer and tool Enables quick and easy installation
Equipped with Automatic Safety Lock	Prevents tool or load from falling in event unit loses tension or powerspring breaks
Equipped with manual Safety Lock to secure cable in position	Facilitates quick and safe tool change-over without risk of cable fly-back
BFL model features ratchet lock	Retraction tension is locked in place to allow unrestricted tool movements
Units feature hole suitable for fitting safety chain	Can provide added security
Tools attached using snap hook with locking nut	Increases security of tool and simplifies attachment and removal

BF / BFL Models

Applications

General Industrial | Manufacturing | assembly facilities | Portable tools | Electric Tools | Mechanical Tools | Pneumatic Tools | Cabling and hoses
