

Pointed pliers, bent, for electronics

Black phosphated surface

ATORN[®]

Application

For highly precise assembly tasks in electronics and precision mechanics fields.

Version

- C-45 steel, 44-48 HRC arm hardness

Advantage

- Anti-glare, phosphatised surface enables safe working
- With low-friction double-opening spring and two-component handles for fatigue-free, ergonomic working

Art. No.	53027 030
Length	125 mm
Surface	Phosphated
Material of the grip handle	2-component plastic
Head design	Pointed head

EAN-Code

4050293170474
