

RJ15-N

### **Features**

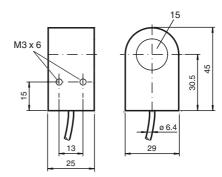

• 15 mm inside diameter

EN 60079-0:2009, EN 60079-11:2012 Ignition protection "Intrinsic safety"

Use is restricted to the following stated conditions

RJ15-N...

 $\leq$  130 nF; a cable length of 10 m is considered.

 $\leq$  20  $\mu H$ ; a cable length of 10 m is considered.

The apparatus has to be operated according to the appropriate data in the data sheet and in this instruction manual. The EC-Type Examination Certificate has to be observed. The special conditions must be adhered to!

The temperature ranges, according to temperature class, are given in the EC-Type Examination Certificate.

Laws and/or regulations and standards governing the use or intended usage goal must be observed. The intrinsic safety is only assured in connection with an appropriate related apparatus and according to the proof of intrinsic safety.

No changes can be made to apparatus, which are operated in hazardous areas. Repairs to these apparatus are not possible.
