Emotional safety
No fear of mistakes

Accessibility
Suitable for all types of learners

“There was a boy in the class who had not said a single word during previous English lessons. Now it is him who wants to be the first to talk to Elias Robot.”

Teacher, Tampere

Ready-made content

English

- Based on **CEFR levels Pre A1, A1 and A2**
- Compatible with **Cambridge English curriculum** Starters, Flyers and Movers

Other languages

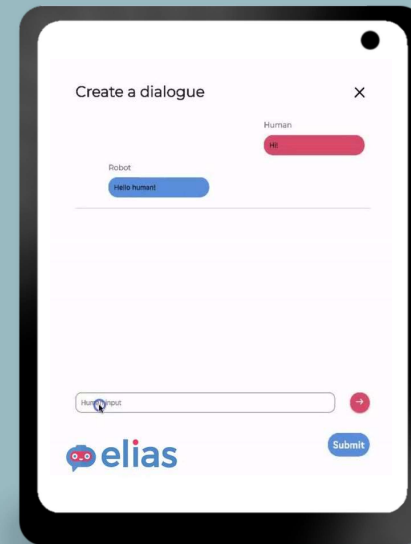

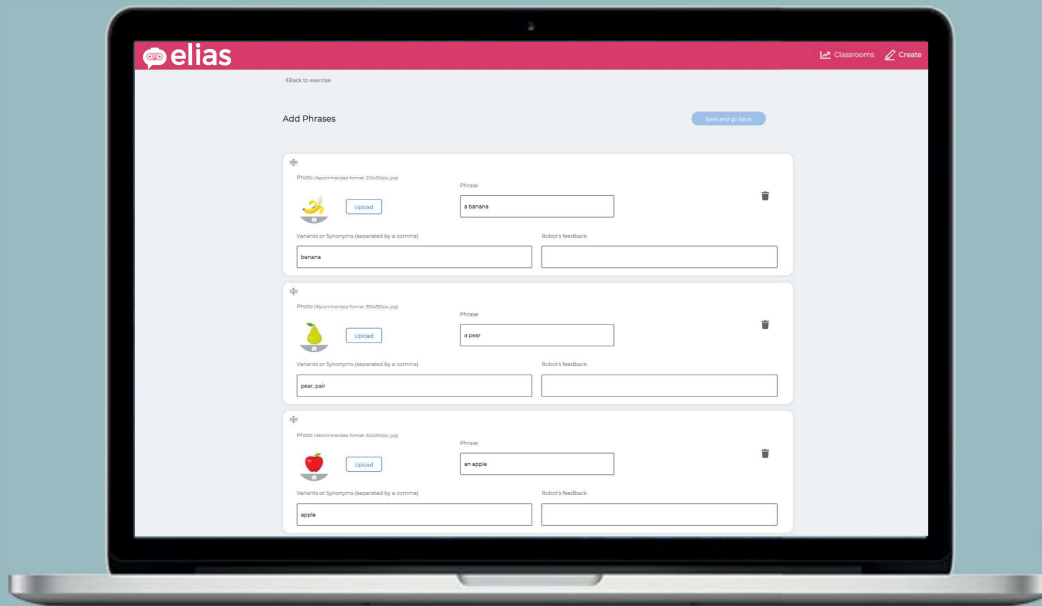

- A1 level exercises for Spanish, French, German, Chinese, Italian, Finnish and Swedish
- Chat mode: Students can have small talk with Elias

Lesson editor

Elias Robot allows teachers to create their own lesson material that include vocabulary exercises, dialogues, quizzes, images and videos.

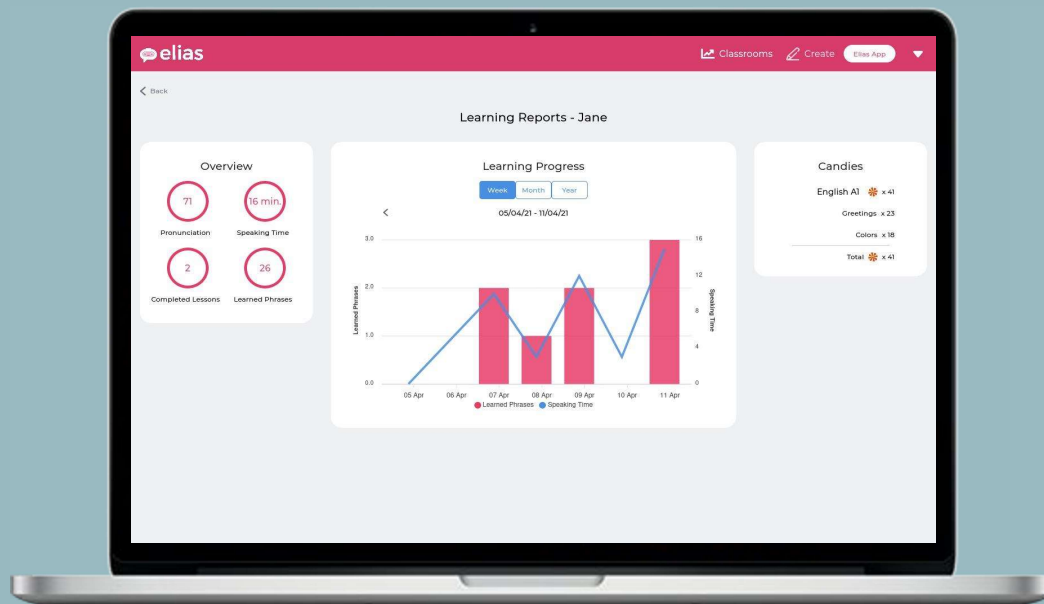

Elias makes it possible to create interactive lessons quickly and easily - no programming skills are required!

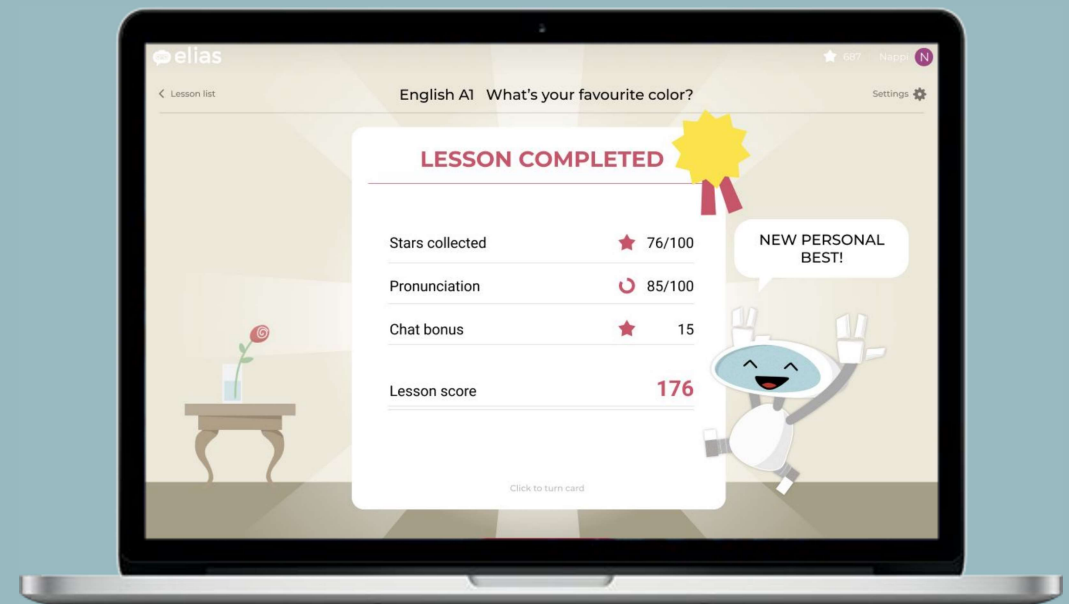

Learning analytics

Elias Robot allows teachers to monitor students' progress on pronunciation, learned vocabulary and phrases, and time spent for conversational exercises.

This helps teachers to notice learning difficulties at an early stage and allows them to make data-driven pedagogical decisions.

Teachers and students love Elias Robot

Carolina Biscossi, Primary School Teacher at IC Bruno Minari Roma

“The pre-AI lessons are excellent for younger children. Easy conversation exercises were very useful for my students, as Elias Robot was part of their first experience learning the English language.”

Carmen Aldama, Primary School Teacher at C.E.I.P. Bec de l’Aguila

“I’m very fond of technology and I feel that Elias Robot can help in language learning and teaching. I found extremely useful and easy to design my own lessons.”

Susana Senos, Middle-school teacher at Agrupamento de Escolas Martim de Freitas

“The kids appreciate the level of difficulty as it increases. My students were able to practice conversational skills at home during the pandemic.”

ELIAS for NAO6

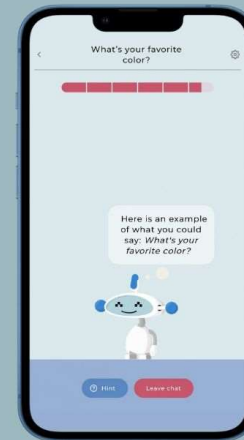

- ELIAS for NAO6 licence for 1 robot
- Pre-made curriculum for English (CEFR A1-A2), French, German and Spanish + sample lessons for several other languages
- Lesson editor for creating custom lessons
- Classroom management
