

BNC plug to 4 mm adaptor

MI078

The MI078 BNC to 4 mm adaptor connects two 4 mm "banana" plugs to a BNC socket.

The BNC to 4 mm adapter connects two 4 mm ("banana") plugs to a BNC socket. If you have a sensor such as a current clamp with 4 mm plug outputs, for example, this adapter allows you to plug it into a PicoScope Automotive Oscilloscope with a BNC input. The 4 mm sockets and BNC plug are fully shrouded for safety.

- Length: 63 mm
- Height: 18.5 mm
- Width: 34 mm
