

Modular aluminium work platform

Rigid

Version:

- Modular design so that both mobile and stationary platform configurations can be altered or extended at any time
- Extremely robust, warp-resistant, corrosion-resistant lightweight metal integrated design
- Up to three additional modules can be combined with the base module B (ref. no. 407) in various configurations

Advantage:

- Lightweight for quick and convenient operation
- Convenient, safe steps (555 mm x 250 mm) made from aluminium diamond plate
- Add-on modules in four different heights
- Various accessories for stationary and mobile use

Art. no.	50260 411
Working height	2.99 m
Weight	5.5 kg
Folding	No
Material	Aluminium
EN standard	14183
Step depth	250 mm
Accessibility	One-sided

EAN-Code

4003866402656
