Material Change of the top plate on some Snap Ins and Screw Terminals

DESCRIPTION OF CHANGE: Reporting of DOTE (Organostannic compound) contained in the PVC top plate of some snap ins and screw terminal capacitors under the Sprague brand will be required after expected revise of EU REACH regulation in 2017. We intend to introduce alternative material for the top plate (DOTE-free PPE (modified-Polyphenylene ether)). The change does not affect function, quality or reliability of the capacitors. The outer sleeve will not be changed. New top plate is only available in black, while current can be black or brown
