

Holder for thread milling cutters, solid carbide

For using front thread milling cutter plates

ATORN[®]

Application

For using ground thread milling cutter inserts no. 13397.

Execution

- Burnished steel tool holder

Advantage

- High process reliability and dimensional accuracy due to precise insert seating
- High-quality carrier material for very high service life requirements

Art. No.	13397 510
Tool holding device	HB parallel shank
Coolant supply	Internal
Cutting edge length	48 mm
Shaft diameter	16 mm
Length	100 mm

EAN-Code
