

PRODUCT INFORMATION

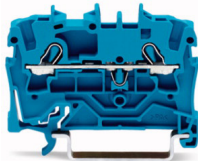

WAGO TOPJOB®S - DIN Rail Terminal Kit - 51251782

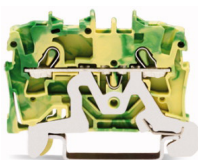

2002 Series 0.25 - 2.5mm² 24A

2002-1201 x 26

2002-1204 x 9

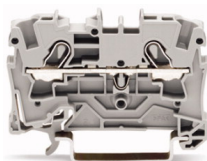

2002-1207 x 9

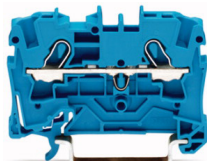

2002-1292 x 5

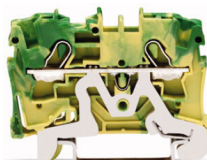

2004 Series 0.5 - 4mm² 32A

2004-1201 x 22

2004-1204 x 8

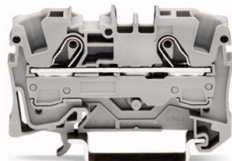

2004-1207 x 8

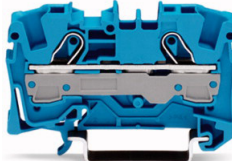

2004-1292 x 5

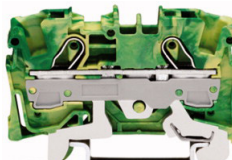

2006 Series 0.5 - 6mm² 41A

2006-1201 x 9

2006-1204 x 2

2006-1207 x 2

2006-1292 x 2

Accessories

210-110 x 1

210-719 X 1

210-720 X 1

2002-402 X 10

2002-403 X 5

2004-402 X 10

2004-403 X 5

2006-402 X 5

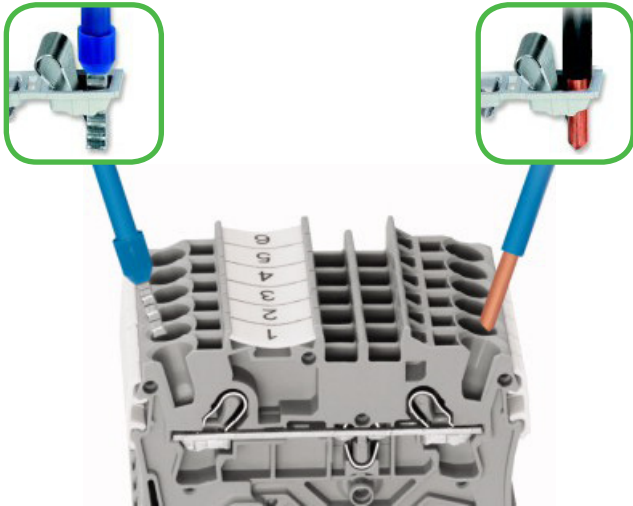

249-116 X 12

793-501 X 1

CAGE CLAMP® S

Solid Conductors and Fine-Stranded Conductors with Ferrules

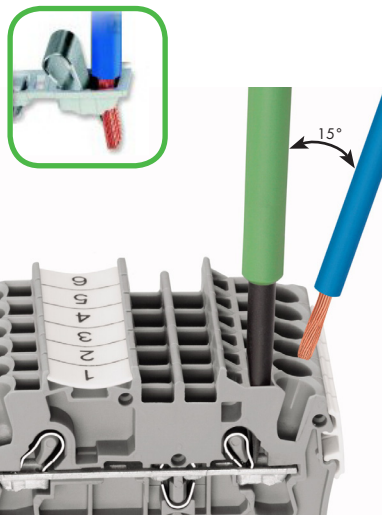

Push-in termination

Stripped solid conductors, fine-stranded conductors with ferrules, or ultrasonically "bonded" conductors are simply pushed in until they hit the backstop.

Without using any tools.

Fine-Stranded Conductors

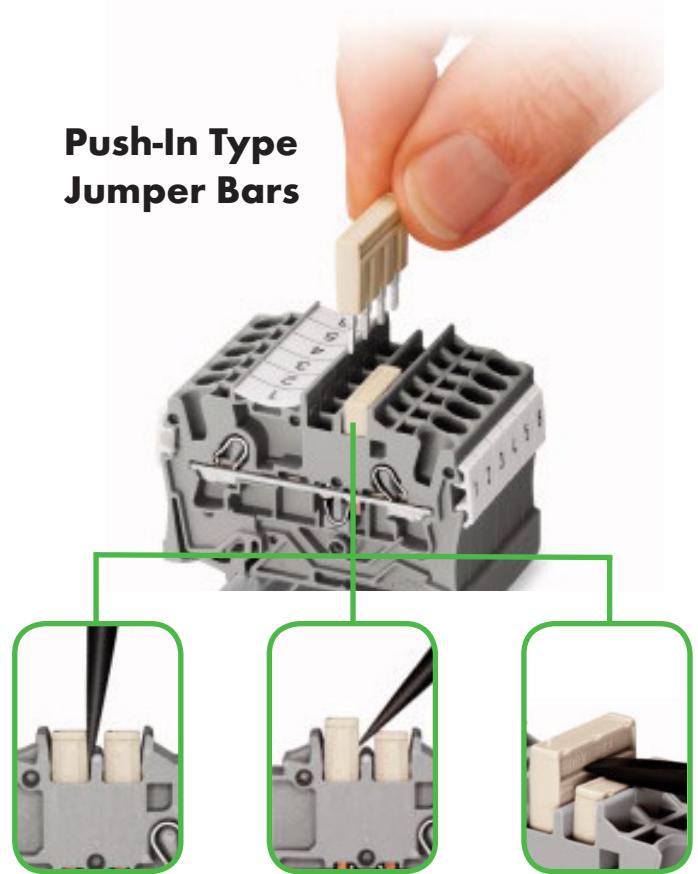

Termination using a screwdriver

Connecting fine-stranded conductors without ferrules, or small cross-sectional conductors that cannot be pushed in, is performed similar to the original CAGE CLAMP® - just use a screwdriver.

Conductor removal:

Like the original CAGE CLAMP®, a screwdriver is used for conductor removal with CAGE CLAMP®S.

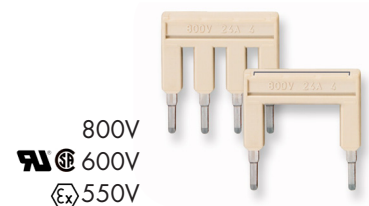

Push-In Type Jumper Bars

Jumper removal

Insert the screwdriver blade between the jumper and the partition wall of the dual jumper slots, then lift up the jumper.

Place the screwdriver in the centre of jumpers with up to 5 contacts. For jumpers with more than 5 contacts, place on both sides of jumper.

Attention: Observe operating instructions, danger to life and limb!

1. To be used by qualified personal only
2. Do not touch whilst live!
3. Do not use products for purposes other than those for which it is intended!
4. Observe the relevant regulations!
5. Observe products' technical data!
6. Do not use damaged products!
7. Observe stripped length!
8. Use original accessories only!
9. Insert conductor up to the stop!

To be sold only with installation instructions!
