

Pocket magnifying lamps mobilux LED

ESCHENBACH

Application:

For magnifying small parts with additional light source

Version:

- Illuminated by SMD LED
- Large, user-friendly switch
- Lanyard eyelet
- PXM plastic lightweight lens

Advantage:

- Long LED service life: approx. 50,000 hours
- Step-up converter for voltage control (for brighter, consistent lighting over a longer period than other LED pocket magnifying lamps without step-up converters)
- Collimating lens for bright, homogeneous illumination
- 3 attachable filters (white, yellow, orange) – various colour temperatures

Delivery:

including batteries (2 x Mignon 1.5 V, type AA), case for optimum lens protection
