

neoLab Vortex mixer for test tubes

Strong performance, but economic!

- **adjustable shaking speed from 0 to 3200 rpm**
- extremely good mixture of the content of test tubes or microtubes
- operation **in continuous or in press-to-mix mode**
- control of the shaking intensity by varying pressure on the head
- heavy cast iron housing and rubber feet avoid movements during operation
- delivery including black cup head for single tube shaking
- additional holder for 8 or 20 microtubes available

Dimensions: 13 x 16 x 18 cm (L x H x W)

Weight: 4.8 kg
