

Working platforms

Foldable, double-sided access

Version:

- Platform size approx. 600 x 300 mm
- 85 mm deep steps with holes for draining liquids as well as profiling for secure footing
- Maximum stability and torsional rigidity thanks to platform with integrated hinge connection
- Double-sided, rigid connection
- 7-point step strut connection with suspender strip in the middle of the step

Advantage:

- Reflective stripes on the struts for better perception in poor visibility conditions

Art. no.	50260 426
Working height	2.49 m
Number of steps (including platform)	2 x 2
Step depth	85 mm
Material	Aluminium
EN standard	14183
Accessibility	Both sides
