## Compact multi flashlight with white and ultraviolet light

Crystal WUV is a universal model of the Crystal series with white and ultraviolet

light. Just like other Armytek compact multi flashlights, Crystal WUV provides a wide flood light for use at close range during an evening walk, jogging or performing tasks in low-light conditions. However, thanks to an additional LED, the capabilities of the flashlight are significantly expanded. UV light allows reading hidden inscriptions and marks, as well as detecting leaks of technical liquids and household stains.

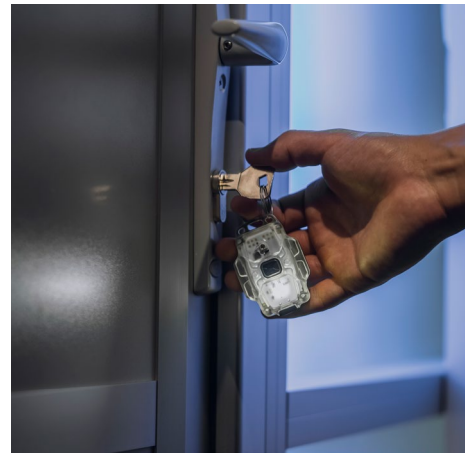

Weighing only 34 grams, the compact multi flashlight is convenient to carry in a pocket or bag together with keys. It can also be fixed on the head with the headband or attached to clothes, belt or a backpack strap with a clip. In addition to that, the set includes a convenient lanyard for wearing on a wrist or around the neck. With the durable lanyard, Crystal WUV can be hung on a branch of the nearest tree or on a hook under the ceiling of a tent to illuminate the campsite during a trip to nature.

**6 in 1**

**1 HEADLAMP**

Soft elastic headband. Special design with thought-out optical elements provides convenient beam angle of white light with minimum loss of light for use at a close distance.

**3 KEYCHAIN LIGHT**

Wear-resistant plastic rings for keys or lanyard.

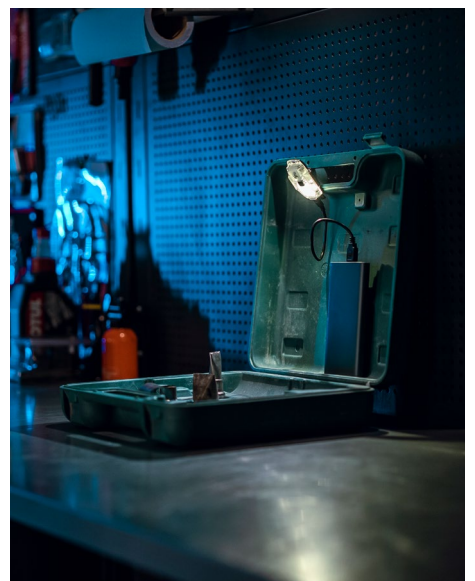

**4 SPORTS FLASHLIGHT**

Body made from durable materials, constant light without flickering. Multiple variants of installation on sporting gear.

**2 EVERY DAY CARRY LIGHT**

Lightweight and compact body. Possibility to attach to bag, pocket, shoulder strap or cap using a clip. Paracord lanyard for wearing on a wrist or around the neck.

**5 LAMP MODE**

Works directly from a Powerbank or any USB power supply.

## 6 SIGNAL LIGHT

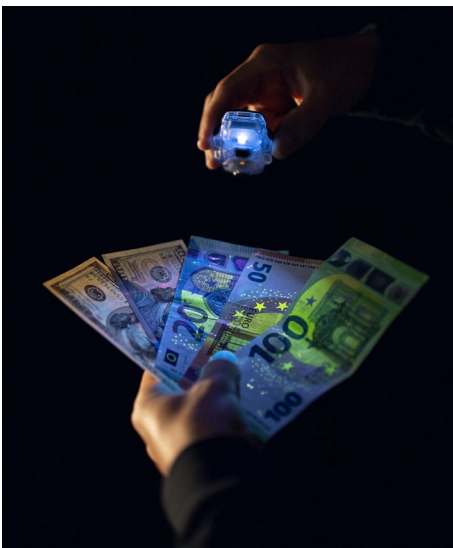

Different operating modes, omnidirectional light.

- Convenient operation with one button, double click to change the type of light
- Unique fully luminous body

- Built-in Li-Pol 600 mAh battery charges with any Micro USB cable
- Color indication of charging process

- IP67 standard: reliable protection from dust and submersion at 1 meter for 30 minutes. Withstands fallings from up to 10 meters

Ultraviolet light with 365 nm wavelength is for verification of currency and passports authenticity, revealing household stains, detecting leaks

## SET DESCRIPTION

- 1 - flashlight with built-in battery
- 2 - headband
- 3 - lanyard
- 4 - user manual in eight languages

**ARMYTEK**

# BENEFITS OF WORKING WITH ARMYTEK

Armytek is a world famous manufacturer of high-tech flashlights, chargers and accessories. All Armytek products perfectly meet the buyer's requirements. We focus on quality and reliability: smart lineup allows us to thoroughly think through every detail before launching mass production.

## **HIGH PROFIT**

Favorable conditions and flexible prices for bulk orders are ensured by own factories in China.

## **FAST SHIPPING**

Warehouses around the world: the goods are always in stock and ready for shipment. Reduced costs and time of delivery, no additional customs fees required. Lower costs on shippings directly from the factories.

## **EXCEPTIONAL RELIABILITY**

Minimum returns rate – less than 1% (competitors' rate is 5-7%). All products go through quality checking on test stands.

## **LEGENDARY SERVICE**

Full support and cooperation: from placing an order to warranty service. Professional issue management, fast repairs and exchange.

## **NO HASSLE WARRANTY**

Up to 10 years unprecedented warranty.

## **OWN FACTORIES**

Every step of the process is controlled by our European specialists at the factories.

## **DEVELOPMENT**

Head office in Europe. Team of highly qualified specialists from defence, aviation, space and other specialized industries.

## **EXPERIENCE**

Expert in the fields of mechanics, optics and electronics. We specialize in development and manufacturing of flashlights and battery chargers since 2009.

## **COMPONENTS**

Components by world's leading manufacturers. Powerful LEDs, innovative electronics, aircraft-grade aluminium, tempered glass, etc.

## **SMART LINEUP**

Simple process of choosing a product, no bulky catalogs with a lot of similar variants. Only best models for client's needs.

## **NEW PRODUCTS**

Armytek produces innovative and the most technically advanced products in the world.

## **PRIVATE LABEL, OEM/ODM**

Creating new products, modifying our production models and personalizing them according to your needs.

## **MARKETING SUPPORT**

We provide all the necessary promotional materials: leaflets, booklets, catalogs, etc.

## **CLIENTS' NEEDS RESEARCH**

We systematically gather feedback to make sure that our products completely fit clients' needs and requirements.

**Built to exceed**
