

Gauge slide for electronic length measuring probes FMS

Straight and offset measuring faces

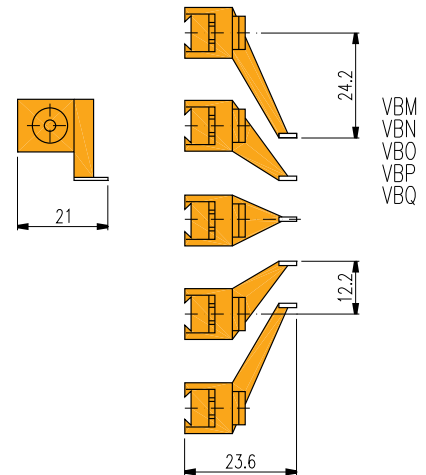

Application:

For applications in multipoint measuring technology. Particularly suitable for measuring tasks in which features are close together. The probes are mounted directly on the electronic length measuring probe FMS.

Advantage:

- Gauge slide can be moved and individually adapted to measuring tasks
- Fastening screw for fixing the gauge slides accessible from above

Art. no.	39658 132
Brand	TESA
Manufacturer Part Number	02630049
Gauge slide type	VBO
Scanning offset to centre axis	0 mm
Scanning offset	Straight
Probe surface width	0.7 mm
Probe surface height	2.2 mm
Number of rechargeable batteries/batteries	0
Gross Weight	0.010 kg
Product Group	362

EAN

7630041111965
