2. SCHUKO TO TYPE 2 ADAPTER

is a great solution for charging your car, motorcycle or electric scooter. The cable has a Schuko socket on one side and a Type 2 plug on the other. With it, any electric car with a Schuko plug can be charged using a charger with a Type 2 socket. This is especially useful when we use a Schuko cable in an electric car and we want to charge it at a private or public Type 2 charging station. Cable length is 30cm.
