VOLTCRAFT

VOLTCRAFT - TOP PERFORMANCE IN EVERY WAY

For more than 40 years, our product range has been dynamically adapting to the constant changes in the industry. We commit to offering first-class quality to our customers while delivering an excellent cost-performance ratio. This philosophy remains the cornerstone of Voltcraft's success.

DLP-3303 C€ Laboratory power supply

Item no: 2619139

The power supply is used as a potential-free DC mains supply to operate low-voltage devices. It is connected via 4 mm safety sockets. The output voltage and current can be adjusted. The DC output is electrically isolated and features protective isolation towards the mains voltage.

1

FEATURES

Colour LCD display // Three independently controllable channels // Max. output resolution : 1mV / 1mA // Low ripple/noise // Up to 100 group timers // Multi working mode: individual, parallel, and series // Over voltage/Over current protection // Data logging function // Auto-cooling system // Multi-CI: USB, RS232, and LAN // SCPI and LabVIEW support

Programmable output Storage 1M points		
Groups saved in internal 100 groups memory		
Time setting Second		
Data Record Function 10k groups of data (voltage, current)	10k groups of data (voltage, current)	
Ports USB Host, USB Device, RS232, LAN, supports US		

Display

Item	Value
Display type	10 cm (4") colour LCD
Resolution	480 x 320 pixels
Colour	65536 colour, TFT

Power

Item	Value
Power voltage	220 – 240 V/AC; 50/60 Hz
Fuse	220 V (250 V, F3A)

Environment

Item	Value
Working Temperature	0 to +40 °C
Storage Temperature	-20 to +60 °C
Relative humidity	≤90 %
Altitude	3,000 m (operating)
	15,000 m (not operating)
Cooling	Fan cooling

Others

Item	Value
Dimensions (L x W x H)	250 x 158 x 358 mm
Weight	approx. 9.8 kg
