RS PRO SPC0 Surface Mount Momentary Air Switch

RS Stock No.: 319-708

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

- *Introducing the series of excellent quality Air Switches from RS PRO. Air switches are a type of push button switch that uses air pressure instead of electricity to activate the device it is connected to. This series of single-pole momentary or latching air-operated switches are suitable for use with all air actuators and accessories.*
