

Wave Form - Helix (Slinky)

PH0708A and B

PH0708A	Coil Dia. 7.5 cm, length closed 10 cm
PH0708B	Coil Dia. 7.5 cm, length closed 5 cm

- A scientist's version of the classic toy! (With a higher spring constant)
- Can be used as a scientific instrument to measure a wave function and for demonstrating a variety of physics concepts
- Send it down a wicked set of stairs for an exciting display
- Stretches up to 3 meters in length!
- Great for demonstrating a variety of physics topics including potential and kinetic energy, Hooke's Law, energy of motion and more
- Learn impressive tricks!
