

“Writer” labelling and marking tool

For reliable labelling of parts

Application:

High-quality labelling using Writer with a combination of material compaction and material displacement.

Execution:

- workpieces up to a hardness of 57 HRC can be labelled
- workpiece unevenness is compensated for up to 7 mm
- possible to mark round surfaces
- labelling possible both in dry and in wet state
- permissible spindle speeds from 0-300 rpm
- marking speed up to 200 m/min
- can also be used on lathes
- Writer XI and L: convenient adjustment via knurled nut
- Writer XL: reinforced version for heavy-duty use
- Writer M and S: compact design for confined conditions

Advantage:

- universal use in a wide range of materials
- no need for external labelling
- reduced processing times of workpieces
- production efficiency is increased

Art. no.	16531112
Brand	AMF
Manufacturer Part Number	17475
Harmonized System Code	82079091
Gross Weight	0.407 kg
