

Spirit level extra strong profile

Application:

For horizontal and vertical alignment of an object

Version:

- With ultrasonically welded levels and non-glare reading
- Round horizontal bubble vial with magnifying effect
- Life-long high measuring accuracy (0.5 mm/m) through ultrasonically welded levels
- Reverse measuring possible (0.5 mm/m)
- Solid body and impact-resistant rubber end caps maintain high measuring precision

Advantage:

- Edgeless horizontal spirit level for undistorted view of bubble,
- even during reverse measuring

Art. no.	38096 120
Length	1200 mm
Measuring accuracy (per length)	0.5 mm/m
