Electronically temperature-controlled soldering station DIGITAL 2000 A
50–450°C adjustable

Application:
For professional soldering tasks.

Execution:
- Voltage 230 V, 50/60 Hz, noise suppressed
- Powertool with temperature sensor next to the soldering lug for instant re-heating
- Microprocessor-controlled
- Antistatic
- Automatic detection of 4 additional soldering devices

Delivery:
Digital 2000 A control unit, Powertool soldering iron, support rest with viscose sponge, 1.5-m connection cable with plug

Art. no.	54371 010
Brand	ERSA
Manufacturer Part Number	0DIG20A84
Type	DIGITAL 2000 A
Type description	0842 CDLF
Power rating	80 W
Min./max. temperature conditions	50 to 450 °C
Heat-up time	40 s
Tip diameter	2.2 mm
Shape of tip	Chisel-shaped
Gross Weight	2.700 kg
Product Group	5JN

EAN
4003008060881
