

X/Y cross table

With two micrometers SKW 0.01mm

ATORN[®]

Application

Ideal for precise positioning tasks using two analogue micrometers. Optional jaw sets also allow for the inclusion of the ATORN precision vices. Smaller components can be clamped and positioned optimally. Particularly suitable for measuring roughness, contour, and optical measuring technology.

Art. no.	47105 760
Design	With fastening threads on both sides
X travelling distance	10 mm
Y travelling distance	10 mm
Alignment tolerance	5 µm
Length x width x height	50 x 50 x 27 mm

EAN-Code

4050293636666
