

Cubitron™ II 947A abrasive cloth for hand-guided machines

For stainless steel, structural steel, non-ferrous metals and aluminium

3M

Application:

For pre-sanding, material removal and deburring. The thinner X-cloth backing makes it ideal for even transitions in edge areas and in welding seam preparation.

Advantage:

- Produces a consistent grinding finish
- For cool, fast grinding
- Thinner fabric backing for more consistent transitions on edges and when machining weld seams

Art. no.	69292 100
Brand	3M
Manufacturer Part Number	7100171627
Width of tape x length of strap	13 mm x 610 mm
Manufacturer Article Number	7100171627
Grid size	40
Material of abrasive medium	Cubitron
Scattering	Closed distribution
Binding	All-synthetic resin
Backing material	X-weight cloth
Material to be processed	Stainless steel, Structural steel, Non-ferrous metal, Aluminium
Gross Weight	0.010 kg
Product Group	6DM
