

# Single phase, primary switched mode power supply **PEL 230/24-4**

## Advantages

|   |
|---|
| Stabilised and adjustable output voltage        |
| DC OK signalling via LEDs                       |
| Parallel connection option                      |
| Service-friendly spring-loaded connector system |
| Panel installation on mounting rails            |

## Applications

Primary switch mode power supply is concentrated on the core task of voltage and current supply. Flat step profile optimized for installation in control panels in the building automation.

## Standards

Primary switched mode power supply  
to UL 60950, UL 508

Safety:  
EN 61558-2-16, EN 60950-1

EMC:  
EN 61204-3

## Approvals

UL/CSA 60950 recognised, UL508 listed, Germanischer Lloyd

# Single phase, primary switched mode power supply PEL 230/24-4

| Type                                       | PEL 230/24-4                          |
|--|---------------------------------------|
| <b>Electrical data</b>                     |                                       |
| <b>Input</b>                               |                                       |
| Input rated voltage                        | 100 - 240 Vac                         |
| Input voltage range                        | 85 - 264 Vac (120 - 373 Vdc)          |
