

Section 1 - Identification of The Material and Supplier

Aero Healthcare
One the Business Park, Maydwell Avenue
Slinfold, Horsham, RH13 0AS

Ph: +44 845 604 8280
Fax: +44 845 604 8281

Chemical Nature: This is an item made up of a number of separate parts.
Trade Name: **AeroBurn Gel and Sterile Dressings**
Product Code: ABD10, ABD20, ABD34, ABD45, AB3, BSG50
Product Use: For minor burns and scalds. Cools the burn and soothes pain.

Creation Date: **October,2006**
This version issued: **March, 2021**

Section 2 – Hazards Identification

Classification of the Substance or Mixture This product is classified as: Not classified as hazardous according to the criteria of CLP.

Label Elements

Hazard Pictograms: Not Hazardous – No criteria found
Signal Word: Not Hazardous – No criteria found
Hazard Statement: Not Hazardous – No criteria found
Precautionary Statement: Not Hazardous – No criteria found
UN number: None allocated

Emergency Overview

Physical Description & colour: Slightly clear hydrogel and non-woven dressing contained within a robust foil pack or spray bottle.

Odour: Tea Tree Oil

Major Health Hazards: No significant risk factors have been found for this product

Section 3 – Composition/information on ingredients

Declaration on ingredients according to CLP:

Hazardous components CAS-No	EC number REACH Regulation No.	Content	Classification
None	NA	NA	NA

Section 4 – First Aid Measures

General Information	In case of adverse health effects seek medical advice.
Inhalation:	
Short Term Exposure:	Available data indicates that this product is not harmful. In addition, product is unlikely to cause any discomfort or irritation.
Long Term Exposure:	No data for health effects associated with long term inhalation.
Skin Contact:	
Short Term Exposure:	Available data indicates that this product is not harmful. It should present no hazards in normal use. In addition, product is unlikely to cause any discomfort in normal use.
Long Term Exposure:	No data for health effects associated with long term skin exposure.
Eye Contact:	
Short Term Exposure:	This product is believed to be not irritating to eyes.
Long Term Exposure:	No data for health effects associated with long term eye exposure.
Ingestion:	
Short Term Exposure:	Significant oral exposure is considered to be unlikely. This product is unlikely to cause any irritation problems in the short or long term.
Long Term Exposure:	No data for health effects associated with long term ingestion.
Carcinogen Status:	No significant ingredient is classified as carcinogenic.

Section 5 – Fire Fighting Measures

Fire and Explosion Hazard:	There is no risk of an explosion from this product under normal circumstances if it is involved in a fire. Fire decomposition products may be toxic if inhaled. Take appropriate protective measures.
Extinguishing Media	Not Combustible. Use extinguishing media suited to burning materials.
Fire Fighting:	If a significant quantity of this product is involved in a fire, call the fire brigade.
Flash point:	Not Combustible.
Upper Flammability Limit:	Not Combustible.
Lower Flammability Limit:	Not Combustible.
Autoignition temperature:	Not Combustible.
Flammability Class:	Not Combustible.

Section 6 – Accidental Release Measures

Accidental release: This product is sold in small packages, and the accidental release from one of these is not usually a cause for concern. For minor spills, clean up, rinsing to sewer and put empty container in garbage. Although no special protective clothing is normally necessary because of occasional minor contact with this product, it is good practice to wear impermeable gloves when handling chemical products. In the event of a major spill, prevent spillage from entering drains or water course and call emergency services.

Section 7 – Handling and Storage

Handling: Keep exposure to this product to a minimum, and minimise the quantities kept in work areas. Check Section 8 of this MSDS for details of personal protective measures, and make sure that those measures are followed. The measures detailed below under “Storage” should be followed during handling in order to minimise risks to persons using the product in the workplace. Also, avoid contact or contamination of product with incompatible materials listed in Section 10. No food, drink or smoking.

Storage: Make sure that the product does not come into contact with substances listed under “Incompatibles” in Section 10. Check packaging – there may be further storage instructions on the label.

Section 8 – Exposure Controls and Personal Protection

Exposure limits have not been established for any of the significant ingredients in this product. No special equipment is usually needed when handling small quantities. The following instructions are for bulk handling or where regular exposure in an occupational setting occurs without proper containment systems.

Ventilation:

No special ventilation requirements are normally necessary for this product. However, make sure that the work environment remains clean and that dusts are minimised.

Eye Protection:

Eye protection is not normally necessary when this product is being used. However, if in doubt, wear suitable protective glasses or goggles.

Skin Protection:

The information at hand indicates that this product is not harmful and that normally no special skin protection is necessary. However, we suggest that you routinely avoid contact with all chemical products and that you wear suitable gloves (preferably elbow-length) when skin contact is likely.

Protective Material Types:

There is no specific recommendation for any particular protective material type.

Respirator:

If there is a significant chance that dusts are likely to build up in the area where this product is being used, we recommend that you use a suitable Dust Mask.

Section 9 – Physical and Chemical Properties

Physical state	Slightly clear hydrogel and non-woven dressing contained within a robust foil pack or spray bottle
Appearance:	
Odour:	Tea Tree Oil.
Boiling point:	100 °C
Flammability:	Not Combustible
Explosive properties:	n/a
Oxidising properties:	n/a
pH of impregnating liquid:	No data. Expected to be neutral.
Flash point:	Not Combustible
Solubility:	Soluble
Auto-ignition:	No data
Self-heating:	n/a

Section 10 – Stability and Reactivity

Reactivity:	This product is unlikely to react or decompose under normal storage conditions. However, if you have any doubts, contact the supplier for advice on shelf life properties.
Conditions to Avoid:	None known
Incompatibilities:	No particular Incompatibilities
Fire Decomposition:	Combustion forms carbon dioxide, and if incomplete, carbon monoxide and smoke. Water is also formed.
Polymerisation:	This product will not undergo polymerisation reactions.

Section 11 – Toxicological Information

No acute or chronic toxic effects expected when used according to directions.

Section 12 – Ecological Information

On the basis of available information, this product is not expected to produce any significant adverse environmental effects when recommended use instructions are followed.

Section 13 – Disposal Considerations

Disposal:	Used or unused product should be disposed in accordance with local laws and regulations.
------------------	--

Section 14 – Transport Information

US Department of Transport Classification:

The product is not a DOT controlled material (United States).

International Air Transportation Association Classification:

This product is not classified as a hazardous material for transport under IATA regulations.

International Maritime Organisation – IMDG:

This product is not classified as a hazardous material for transport under MIDG regulations.

UN, IMO, ADR/RID, ICAO Code:

This product is not classified as a hazardous material for conveyance under these codes.

Specific precautionary transport measures:

Avoid wetting or violent handling. Ensure to avoid falling, drop and damage and prevent load collapse during transport.

Section 15 – Regulatory Information

EC Label:	N/A
Contains:	N/A
Other regulation:	N/A

For details regulations you should contact the appropriate agency in your country.

Section 16 – Other Information

This MSDS contains only safety-related information. For other data see product literature.

The data is offered in good faith as typical values and not as a product specification. The information in this data sheet was compiled from information supplied by the vendors of the components of this compound. No warranty, either expressed or implied is hereby made. The recommended industrial hygiene and safe handling procedures are believed to be generally applicable. However, each user should review these recommendations in the specific context of the intended use and determine whether they are appropriate.

Please read all labels carefully before using product.
