

Data sheet

Thermocouple Extension & Compensating Cable

ANSI PVC Insulated & Screened (ANSI MC96.1)

Type KX

Type JX

- PVC insulated & screened
- Twisted cores & screened construction for reduced electrical noise
- Conductors PVC insulated and twisted together, aluminium Mylar® tape screen & drain wire, overall PVC sheath
- General purpose cable both waterproof and flexible
- Thermocouple extension types for K & J
- Stranded 7/0.2mm conductors
- Available in 10, 25, 50, 100 & 200 metre lengths
- Tolerance Class 2
- Insulation rating -10°C to 105°C
- Colour code (cores & jacket) to ANSI MC96.1

T/C Type	Conductors	Cores	Jacket	Reel Length	Order code
