

Collision protection for rack supports

Made of recycled plastic

Application:

Optimal safety and protection, suitable for almost all brands of shelf racks.

Execution:

- Virtually indestructible ballistic plastic body armour
- Highly flexible inner foam for optimal force distribution
- Excellent visibility
- Suitable for cold storage - withstands extreme temperatures down to -40 °C

Advantage:

- Prevents accidents and minimises repair work and costs
- Ideal slim design – no loss of shelf space
- Elastic, spring-back, dimensionally stable - returns to its original shape
- Non-toxic and fully recyclable
- Quick, easy installation, does not need to be fixed to the floor

Art. no.	50172 521
Size	S
Height	600 mm
Material	Plastic recyclate
Type	ECO RACK
Suitable for max. shelving stand width	87 mm
Suitable for min. shelving stand width	70 mm
Product Group	504

EAN

716053203885
