

Holder thread milling cutter dual-cutter steel straight shank HB

For using thread milling cutter inserts

ATORN[®]

Application

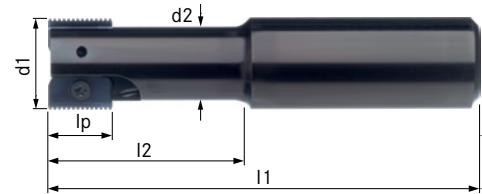

For using ground thread milling cutter inserts no. 13397.

Version

- Burnished steel tool holder with two insert seats

Advantage

- High process reliability and dimensional accuracy due to precise insert seating
- High-quality carrier material for very high service life requirements
- High machining speed due to two-tip geometry

Art. No.	13397 095
Tool holding device	HB parallel shank
Coolant supply	Internal
Suitable for indexable insert size	21
Cutting edge length	21 mm
Cutting edge diameter	30 mm
Suitable for min. diameter	39 mm
Shaft diameter	25 mm
Length	108 mm
Effective length of thread milling	52 mm
