

COVID-19 Update: We are still busy processing online orders and dispatching as quick as possible. Whilst the majority of deliveries arrive on time and without a problem, next day & pre noon delivery services are NOT guaranteed and postal deliveries may take a little longer than usual. Thank you for understanding. [Click Here](#) for more information.

More info

This Starlight™ ST Fibre Patch Panel is available with a range of port densities. The fibre patch panels are manufactured from mild steel and finished in a black powder coating. They are suitable for mounting in 19" cabinets.

The panels feature fully adjustable mounting brackets, numbered adaptor ports and a range of panel knock-outs to suit common gland sizes. The panels include a sliding tray for easy access to splices.

Fibre Panels are supplied fully loaded and complete with splice management. Unloaded versions and other connect or styles are available upon request.

Features:

- High quality rigid mild steel construction
- Rear knock-outs to suit three sizes of cable glands
- Adjustable mounting brackets providing flush mount or 50mm recess

- Numbered front panel
- Fibre management kits included

Features

Weight

2.8kg (fully loaded)
