

Steel ruler

Accuracy class 0, stainless steel

Execution:

- Precision design: top edges and flat sides precisely machined, ground and calibrated. Rulers up to 1500 mm have rectangular section, rulers above 2000 mm have a double-T section and 2 hand slots
- Rectangular section
- Test surfaces finely sanded
- Straightness of test surfaces according to DIN 874

Art. no.	37451 075
Length	750 mm
Cross-section length x cross-section width	50 x 10 mm
Accuracy class	0
Weight	3 kg
Material	Stainless steel
Calibration Group	CG
Gross Weight	2.800 kg
Product Group	375
